## PI&V DEVELOPMENT (DPB381)

PROFESSIONAL SKILLS	Collaboration (Individual)	Student setup initatives of collaboration with other students. Is wel aware and critical of how they work in a team and effectivly uses my feedback to improve.
	Reflection and Critical Attitude	Student is able to link learning insights to activities. Can write good reflections. They are able to identify positive and negative results/insights from learning activities. Adds some suggestions for what they can do with the insights in the future.
PISV	Professional Identity	Shows awareness of their way of working, strenghts and weaknesses. The student is able to argue their identity with past experiences. The identity is actually focussed on designing, not only "professional skills".
	Vision	Is able to express a vision that relates to past personal experiences. It has a personal tone.  They express a sense of how to achieve the vision they have or how they could contribute to it.
DEVELOPMENT	Personal Development Plan	Is able to motivate and setup goals, some have elements of SMART
	Organizing Learning	Student is very able to inditify what they want to learn and where they may find that.
	GENERAL FEEDBACK/ COMMENTS:
